

Hollitown's Course Catalog Fall 2024

This course catalog contains a list of the Hollitown Programs for fall 2024 (with the class lists for each program) for Adults & Academically Advanced Teens.

Individual classes are listed under each separate program of study below. Adults & teens may sign up for individual classes without committing to a full basic program or a full certificate program. All classes listed are self-study, unless otherwise noted. Click on the class name to link to the purchase / registration page for each individual class. Live class or live workshop options may also be available for some of the self-study classes. Contact Hollitown for details.

Program certificates are available for students that take all of the classes under a particular program of study that is offered with a certificate program option, then schedule and pass ALL of the course tests. Programs and class options are subject to change without notice. To register to earn a program certificate, contact Hollitown at the start of your studies.

Hollitown is a high-performance training company, and is not an accredited school or college. All courses of study are designed by Holli Willibey (Hollitown owner / published learning and development theorist / former college instructor of psychology / high-performance training coach), and all meet Hollitown's high-quality standard of excellence. In many ways, the classes meet a higher standard of excellence than an officially accredited school program, but most will not meet the standardization qualifications. (Ex: Transferable college psychology courses must adhere to official formats in order to be deemed similar enough to all college classes in the same category. If a class does not meet these standardization factors, it cannot be deemed transferable.) Hollitown classes are designed to produce specific student outcomes. These classes are not designed to meet a standardized category in a commonly designed school program. This freedom of design allows for Hollitown to meet very real student / community needs that are not addressed in a regular school setting.

*Skills learned in Hollitown classes are relevant and applicable to most areas of personal and professional life. Program certificates are available (once all course and testing conditions have been met) to students that want to validate their studies, to enhance their personal and / or professional skills, advance their employment opportunities, etc. Certain conditions **MUST** be met before a program certificate will be issued to a student. Taking the program classes, alone, will not earn a student a Hollitown program certificate. Contact Hollitown at the start of your program studies if you want the opportunity to earn a program certificate.*

Advanced Learning & Development Psychology

Program Type: Basic OR Certificate

Learning Objectives: Students learn the deep “hidden” basics of natural law as it relates to learning and development, and are encouraged to apply what they learn to real cases. By the end of the program, students will also have learned how to apply their knowledge and newly developed skills in a way that allows them to design the kind of life and relationships they want to create for themselves.

Program Class List:

[HTITM Basic 4 \(7 weeks\)](#)

[HTITM Extended: Parental Impact Course \(2 weeks\)](#)

[HTITM Extended: Freud Course \(4 weeks\)](#)

[Hollitown Learning Theory \(HTLT\) Introductory Course \(4 weeks live\)](#)

Hollitown's Dating & Relating Program

Program Type: Basic

Learning Objectives: Students learn to use the HTITM Basic 4 in relationship building, and are then challenged to complete real-world interaction activities. Students also participate in designing personalized operational structures they can use as they begin to actively create the relationships they want in their lives.

Program Class List:

[HTITM Basic 4 \(7 weeks\)](#)

[Hollitown’s Flirting & Relating 1 Class \(4 weeks\)](#)

[Hollitown’s Flirting & Relating 2 Class \(4 weeks\)](#)

[Hollitown’s GREAT Sex Class \(4 weeks\)](#)

Dream Analysis

Program Type: Basic OR Certificate

Learning Objectives: Students study Freud's theoretical model, broken down into easily manageable parts, and make connections to the ways in which the HTITM Basic 4 can be used to give scientific meaning to this appealing yet mysteriously heuristic model of the human psyche. By the end of the program, students are typically able to analyze dreams with at least a basic level of skill, and many have reported having (and analyzing) dreams of their own as they work to heal issues residing in their own unconscious mind.

Program Class List:

[HTITM Basic 4 \(7 weeks\)](#)

[HTITM Extended: Parental Impact Course \(2 weeks\)](#)

[HTITM Extended: Freud Course \(4 weeks\)](#)

Hollitown's Parenting Program

Program Type: Basic

Learning Objectives: Students learn the impact of parents and authority figures on learning and development. This is an excellent program for parents that want to learn to be the best they can be for their children, and for students that want to learn how they were impacted by their own parents and contributing authority figures (such as grandparents, aunts, uncles, siblings, teachers, etc.).

Program Class List:

[HTITM Basic 4 \(7 weeks\)](#)

[HTITM Extended: Parental Impact Course \(2 weeks\)](#)

Hollitown's Performance Arts Program for Singers

Program Type: Basic

Learning Objectives: Students learn to use the Hollitown 4 Steps Method to produce beautiful vocal performances, and to design an emotionally-based audience experience that is deeply impactful.

Program Class List:

[HT ND Course with the HT 4 Steps Video \(8 weeks\)](#)

[HTITM Basic 4 \(7 weeks\)](#)

[Monthly Group Lessons \(ongoing live, meets once per month\)](#)
